This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook , LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.

NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER • A ten-step plan for finding peace, safety, and harmony with your money—no matter how big or small your goals and no matter how rocky the market might be—by the inspiring and savvy “Budgetnista.” “No matter where you stand in your money journey, Get Good with Money has a lesson or two for you!”—Erin Lowry, bestselling author of the Broke Millennial series Tiffany Aliche was a successful pre-school teacher with a healthy nest egg when a recession and advice from a shady advisor put her out of a job and into a huge financial hole. As she began to chart the path to her own financial rescue, the outline of her ten-step formula for attaining both financial security and peace of mind began to take shape. These principles have now helped more than one million women worldwide save and pay off millions in debt, and begin planning for a richer life. Revealing this practical ten-step process for the first time in its entirety, Get Good with Money introduces the powerful concept of building wealth through financial wholeness: a realistic, achievable, and energizing alternative to get-rich-quick and over-complicated money management systems. With helpful checklists, worksheets, a tool kit of resources, and advanced advice from experts who Tiffany herself relies on (her “Budgetnista Boosters”), Get Good with Money gets crystal clear on the short-term actions that lead to long-term goals, including:

- A simple technique to determine your baseline or “noodle budget,” examine and systemize your expenses, and lay out a plan that allows you to say yes to your dreams.
- An assessment tool that helps you understand whether you have a “don’t make enough” problem or a “spend too much” issue—as well as ways to fix both.
- Best practices for saving for a rainy day (aka job loss), a big-ticket item (a house, a trip, a car), and money that can be invested for your future.
- Detailed advice and action steps for taking charge of your credit score, maximizing bill-paying automation, savings and investing, and calculating your life, disability, and property insurance needs.
- Ways to protect your beneficiaries’ future, and ensure that your financial wishes will stand the test of time.

An invaluable guide to cultivating good financial habits and making your money work for you, Get Good with Money will help you build a solid foundation for your life (and legacy) that’s rich in every way.

live like a pauper when you're old and grey because student loans and sky-high rents mean you can't afford to pay into a pension? One thing is for sure, money may not buy you happiness, but from where you're standing, it sure could buy you a few things that would put a smile on your face - a flat would be nice come to think of it. So what are you going to do about it? Do you want to spend your life in financial turmoil? When Kara Gammell first came to the UK from her native Canada at 23, financially, she was a disaster. After five years of fun at uni, she couldn't manage being paid monthly, certainly didn't know what an overdraft was (or why the cashpoint swallowed her debit card) and at one point was so skint she actually cashed in her Oyster card for the £2 deposit. But Kara took control of her money and turned her cash crisis around. By the age of 28, she was out of an overdraft, had become an award-winning financial journalist and became a homeowner (independent of the bank of mum and dad to boot) - but most importantly, she was no longer living life on the breadline or on the brink of a financial disaster. In this practical and witty guide, Kara explains how whether you are struggling to make ends meet or trying to buy your first home - taking control of your finances can change your life. With clear and straightforward advice on everything from cutting credit card debt to getting more from your money at the supermarket, Kara shares her tried and tested tips so that you have all you need to get it right - the first time. Kara soon learned from her mistakes, and now you can too.
